NEWS OF ALEXANDRIA

Three Boys Steal Copper Rainspout from Church Hall—Taken Into Custody.

Alexandria, Va., Aug. 12.—Stripping all of the copper piping rainspout from Norton Memorial Hall, of St. Paul's Episcopal Church, three colored boys, ranging in age from twelve to fifteen years, this afternoon sold their plunder to a local junk dealer and started out to spend the proceeds. They were arrested by Police Officer Christopher Gill. The boys gave their names as George Johnston, Melvin Johnson, and Theophilus Lloyd.

The junk dealer to whom they had sold the copper suspected something was wrong and at once made a report of his purchase to the police. An examination made a short time afterward disclosed that the boys had mashed the rainspout to make it appear that it was discarded piping before disposing of it. Police Officer Gill found the boys lurking around the brass drinking fountain in Royal and Cameron Streets, and he was of the opinion that the lads were considering removing the fountain. They were promptly taken in custody. At first they told the police that they obtained the copper from a house in Prince Street, but later admitted that they took it from St. Paul's Church. All the boys will be given a preliminary hearing in the Police Court to-morrow morning before Justice L. H. Thompson.

The work of removing the historic cobblestones on the square in Washington Street, between King and Cameron Streets, preparatory to the paving of the square with asphalt blocks, was begun this morning. Granite curbing is also being placed in position on either side. In addition to this square, three other squares, extending from Union to Duke Streets, are to be improved in a similar manner.

About twenty members of Alexandria Lodge, No. 24, E. F. O. Elks, will attend the annual reunion of the Virginia Association in Norfolk August 25-26.

Mayor Paff is anxious to collect all back city licenses before going out of office August 21 next. Persons owing back licenses are expected to come forward and settle. The licenses were due July 1. Under the law delinquents can be fined for conducting a business without a license.

William A. Barnett has purchased from John M. Johnson, commissioner, the three-story brick store building at 113 King Street. A deed of conveyance was placed on record to-day in the office of the clerk of the Corporation Court. The building is now used by Mr. Barnett as a wholesale confectionery store.

The annual financial report of the city school board shows that during the year the receipts were \$247,787.71, while the expenses were \$246,688.71, leaving a balance on hand of \$99.

Walter D. Foster has appointed Harry D. Kirk, an expert accountant, to examine the accounts of the receivers of the defunct Virginia Safe Deposit and Trust Corporation.

Six out of eight of the alleged police players arrested in Alexandria County as the result of raids last Saturday and Sunday were convicted following a preliminary hearing this morning before Police Justice R. Gordon Finney. Fines of \$5 and \$10 each were imposed in addition to small jail sentences.

Out of the eight tried five were convicted of police playing, one for vagrancy, and two were acquitted.

About eighteen others, many colored, arrested in the raids made at the same time because, it is alleged, they operated speak-easies, will be tried at 10 o'clock to-morrow morning before Justice Finney.

Their cases were to have been heard to-day, but a postponement was granted until to-morrow.

The raids on these places were made by John E. Payne, deputy sheriff, and Charles Ward, a special officer at Fort Myer Heights.

SEVEN SLAYERS

DIE IN CHAIR

Record for Executions Established at Sing Sing Prison. Were Italians.

Ossining, N. Y., Aug. 12.—Seven human lives were legally taken to-day in the death chair at Sing Sing, establishing a new record for wholesale electrocutions in America. Of the seven victims six were Italians and the other men were colored. All were murderers.

The following five men were executed for participation in the brutal murder of Mrs. Mary Hall in a farm house at Griffin Corners, West Chester County, last November: Vincenzo Cons, Angelo Gustita, Lorenzo Lebone, Carl Filippo Demarco, and Salvatore Demarco. Joseph Ferrone, also an Italian, was electrocuted for murdering his wife in New York City on October 24 last by cutting her throat.

The black executed was John Collins, who shot and killed Policeman Thomas Lynch in New York City on July 1, 1911, while crazed with drink.

The execution of the five Italians condemned for the murder of Mrs. Hall took place while hundreds of telegrams sent by Italian organizations in all parts of the country begging clemency lay unopened at Albany on the desk of Gov. Dix, who is attending the military maneuvers in Connecticut.

Extraordinary efforts had been made to save Call, who maintained stoutly to the last that he was innocent. Call tried to prove an alibi by declaring that he was working for a gas company in Brooklyn, but as the employees of the company are designated by numbers instead of by names, the doomed man could not establish his claim.

The entire seven executions took place in one hour and fifteen minutes. There was not a hitch during the gruesome ceremony. Experts stated that it was the most successful electrocutions ever held. Sheriff Julius Harburger, of New York, who has been waging a campaign against death by electricity, and who was present to-day, said that the executions were entirely human.

Liner "Limps Into Port."

Rotterdam, Aug. 12.—With 40 passengers on board the North German Lloyd liner Frankfurt, which yesterday collided with the German steamer Barman off the Hook of Holland Lightship, was towed into port to-day by four tugs. Although she had shipped a great quantity of water her officers said she was in no danger of sinking. The Frankfurt was bound from Bremen to Canada with 120 emigrants aboard when the accident occurred. Seven hundred and forty of the passengers were transferred to the Dutch steamer Juno at sea. The Barman was bound from Rotterdam to Bremen.

Next to the Washington Monument the Pillar of the Monument on Cape Cod, 222 feet high, is the loftiest solid masonry structure on this continent.

SHOOTS WIFE, CHILD, AND SELF.

F. E. Kenyon Kills Wife; He Is Dead, Child Dying.

Pittsburg, Aug. 12.—F. E. Kenyon shot his wife and eighteen-month-old daughter, the former through the heart and the latter just above the heart to-day, turned the weapon against his own chest and shot himself in the chest and mouth. The baby is in the Homeopathic Hospital with a small chance for recovery. The murder and suicide was committed in a room of the Lafayette Hotel, Grant Street and Liberty Avenue.

The police are bending every effort to ascertain the real identity of the couple. The only clue found is a telegram addressed to Mrs. Kenyon from Cincinnati, at the Erie Hotel, saying "Brother W. D. Kenyon will meet you."

The signature has been torn off.

Police Probing Mystery.

Pittsfield, Mass., Aug. 12.—Whether a man whose severed head seventeen-year-old Samuel Lemieux found in a field at Windsor, and whose body was found a few hours later by J. J. Gray under a tree from which dangled a noose, committed suicide or was murdered, was the problem that the police to-day set themselves to solve. The man's identity is a puzzle, as no papers were found on his person. He was apparently about fifty years old.

Seventy Thousand May Strike.

Charleston, W. Va., Aug. 12.—An organized movement was begun to-day to call out 70,000 coal miners in West Virginia on strike as a protest against the guard system employed in the mines of Paint Creek Valley. About 10,000 men have been on a strike and where the State Militia has been stationed. In the past few days 2,000 men joined the strikers. Union officials declare twenty miners have been killed in the riots during the past month.

Vote on Railroad Strike.

Macon, Ga., Aug. 12.—The greatest strike of conductors, trainmen, and yardmen in the history of Southern railways is imminent as a result of a strike vote now being taken. Nineteen railroads south of the Ohio and east of the Mississippi are affected. The employees are casting their ballots by mail and the result will be known on August 14.

The surface soil and rock having been removed, coal is being dug from a big Pennsylvania anthracite mine with steam shovels.

GLEN ECHO PARK.

Those who visited Glen Echo Park last night—and they were several thousand in number—found themselves amply repaid for the trip. Always a pleasant place for an all-day outing or at which to spend an evening, the park really comes into its own in just such weather as the Capital is now experiencing. When the heat in the city makes staying indoors almost an impossibility, an ideal way to escape is by means of a trip to Glen Echo, and the unprecedented attendance at the resort shows how popular this trip has become.

With all of its various amusement devices running, and with free motion pictures, one can watch out in the open air, and with excellent music that one can either dance to or sit and enjoy in the big pavilion. The park offers all sorts of amusements out where one can keep cool and comfortable.

Thursday night the big event will be the fireworks, which are included in the free admission, and on Sunday there will be another of the series of popular concerts.

Starting next Monday another daily feature will be added to the free attractions. A daily vaudeville and circus act will be put on in the afternoon and at night in an open-air theater. The first of the acts will be the famous Alvarado's trained goats, well-known circus feature.

Probe Jury Fixing Charge.

Chicago, Ill., Aug. 12.—An investigation of alleged jury fixing in the trial of Mrs. Florence Bernstein, began to-day. A special panel of 100 ventriloquists was ushered into court, and while the probe was under way the work of selecting a jury began. Four jurors had already been selected when it was charged by attorneys that remarks made in the jurors' presence were intended to influence them. Later the court will hear a motion to dismiss the men tentatively selected.

Police Drag for Bodies.

Boston, Aug. 12.—The harbor police to-day dragged Dorchester Bay at the spot where the motor boat Pippin overturned last night with twenty-one aboard in an effort to recover the bodies of two men thought to have been drowned. The missing are Michael Hartigan and John Smith, both of Roxbury.

Heroic rescuers saved ten men and nine girls.

Eight million miles of wire have been added to the telephone systems of the United States in the last five years.

Three Million Years Of Life Wasted Each Twelve Months

EACH family spends on the average of \$57.00 a year for ill health. One-half of this could be saved.

EACH individual loses on the average 13 days through diseases, one half of which are easily preventable.

THE nation wastes 3,000,000 years of life each year through disease and accident; one half of this can be avoided.

To Save This Waste

IT is imperative that each individual know more about Physiology and Hygiene along direct practical, utilitarian lines: what to do in case of sickness and accident.

YOU can save money by not calling continuously on the doctor for the things you can do yourself.

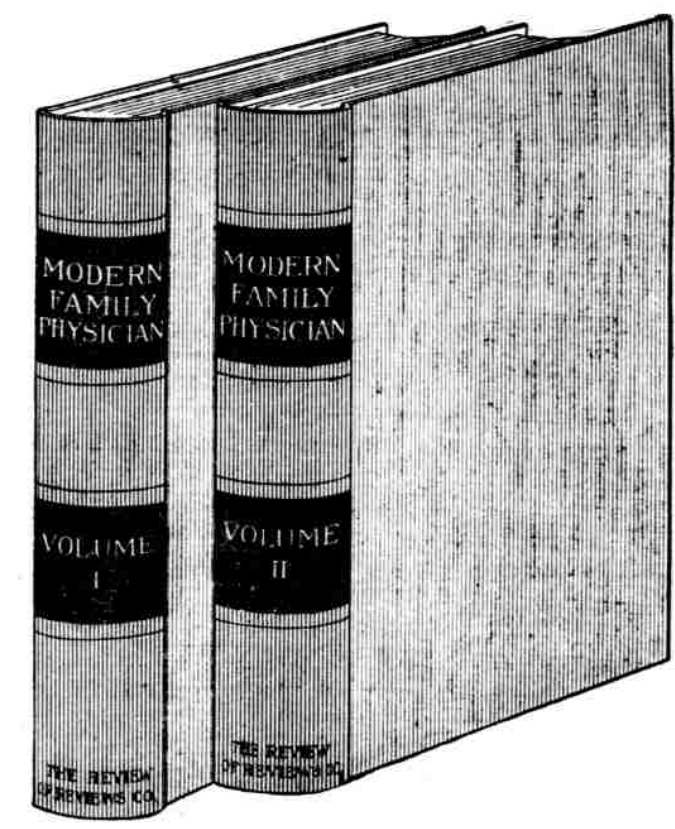

YOU can save time by building up your health and strength to resist the inroads of disease.

YOU can save lives by knowing more about sanitation, spread of contagion, and right and quick action in case of accident.

TO enable each person to save Money, Time, and Life the

I AM COMING

OLD FOLKS FIND NEW REMEDY ENDS ALL KIDNEY AND BLADDER TROUBLES

Drives Rheumatic Pains Away. Relieves Backache and Bladder Disorders After a Few Doses Are Taken.

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

The new discovery, Croxone, cures all such disorders, because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out all the poisonous waste matter from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered, Croxone is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately, and more than a few doses are seldom required to relieve even the most chronic, obstinate case.

It is the most wonderful remedy ever made for restoring the lifeless organs to health and strength and ridding the system of every particle of uric acid, and you can take it with the utmost confidence that nothing on earth will so quickly cure such conditions.

You can obtain an original package of Croxone at trifling cost from any first-class druggist, such as O'Donnell's Drug Store, 504 F St., who will personally return the purchase price if Croxone should fail in a single case.
